CCI edges higher amid the decreasing trend of inflation

Consumer Confidence Index (CCI) rose for the second month to 58.7 in September 2023 from 56.9 in the previous month. It was the highest reading since February 2020, supported by government stimulus policies and higher foreign tourist arrivals. However, consumers remained concerned about global economic slowdown and rising interest rates that had impacted demand for Thai exports; meanwhile, the annual inflation rate in Thailand slowed to 0.3% in September 2023 from 0.88% in the previous month and below market expectations of 0.8%. Still, the reading came in well below the central bank's target range of 1%-3%.
